MJ Kinman

Improve Gems Workshop

Supply List:

- 18” ruler & small ruler with a ¼” measurement
- Freezer Paper
- 6-8 business-size envelopes
- Scissors and rotary cutting tools (cutter and small personal mate). Bring 2 rotary cutters if you want to cut paper with one and fabric with another.
- Fabric – Fat Quarters of cotton solids or gradients. Consider bringing range of values (light, medium, dark) with one or two colorways. This project works best when you have a very dark value, a very light value and a range of 2 or 3 medium values. White and black also work well to bump up the “bling” in your gem.
- Iron and ironing mat.
- Sewing machine and basic sewing supplies.
