

Let's Be Friends: Mystery Quilt Supply List

Using only Batik fabric, we will start with a strip exchange. This will give us a lot of different fabrics/colors to work with.

In the photo is my example of a saturated batik fabric.

Batik fabrics are mostly sold at Quilt shops. They are dyed and most of them have no wrong side. When purchasing this fabric for class, remember that you will also be getting fabrics from others and it would be nice if each of you gave your favorite color!

For our Workshop/Class you will need:

- Mat
- ruler to use with rotary cutter
- rotary cutter with a new blade
- triangle tool such as Easy Angle (available for purchase in class if you don't have it)
- Tri-Rec tool (available for purchase in class if you don't have it)
- sewing machine with all the cords
- seam ripper
- 1/4" foot
- snips to cut thread
- gray or other neutral color thread
- most of all a Happy Face!
- 2 yards of (1) Batik fabric (*Fabric A*)
- 2 yards of a saturated color Batik (*Fabric B*) (photo included)
- 3 yards of background fabric. This can be a white on white, plain white, off white, black or a solid fabric that you want to use as a background. (This doesn't have to be batik fabric) (*Fabric C*)

Before Class you need to cut

- *Fabric A*: Cut (25) 2 1/2" strips (or number of students in class) these will be used for the exchange. **2 yards will be enough to cut 25 strips
- *Fabric B*: Cut (11) 4 1/2" strips then use (6) of these strips to cut (48) 4 1/2" squares
- *Fabric C*: Cut (11) 2 1/2" strips, (4) 4 1/2" strips and (12) 12 1/2" squares. [if you don't have a large square ruler to make these squares one will be available in class]

A pattern will be given so you can make this again!
